EDUCATION

University College of Engineering and Technology

B.Tech in CSE

Bikaner, RAJ

2020 – 2024

BSN Academy

Senior Secondary (XIIth)

Kota, RAJ

2019 – 2020

EXPERIENCE

S.B Air Engineers

Frontend Developer Intern

Apr '24 - Jun '24

Bhiwadi, Rajasthan

- Developed and enhanced the company's business **Website** using **React.js**, **Tailwind** and **Framer-motion**, focusing on frontend design and functionality to effectively showcase their services and products for attracting and engaging customers.
- As an Intern I gained valuable cross-departmental collaboration experience in Business, learning effective communication and teamwork skills to achieve project objectives.

PROJECTS

College Timetable Generation and Management App | *MERN, Material-UI*

[hosted project](#)

- Designed and implemented RESTful APIs using **Node.js (Express)** and **MongoDB** for Database management, used **React.js** (including **React Router**, **Redux**) on frontend. Automated college timetable scheduling to improve efficiency and accuracy, reducing manual errors significantly.
- Enables admins to manage rules, subjects, and teacher assignments, while allowing teachers to submit class and lab requirements. Automatically generates timetables, detects conflicts, and provides accessible schedules for students and teachers.

AnonPad | *Node+Express, MongoDB, React.js, React-Router, Tailwind*

[hosted project](#)

- Created a notes management WebApp with features like language translation, word counting, speech-to-text, and task tracking. Users have secure login, their own database for saving notes, and a design that works smoothly on any device.

Anon's Shelf | *React.js, React-Router, Firebase*

[hosted project](#)

- Developed a WebApp for users to discover, explore, and organize their favorite Movies and TV shows in a personalized watchlist. The app includes features like a search bar, content filters, trailers, and category-specific navigation.
- Implemented secure login with Firebase, allowing users to manage their watchlist in a personalized database, while enjoying a responsive and visually appealing design.

Other Projects

[visit Github](#)

- Chrome Extension, Movie Quote Generator, URL-shortener, Blog Website UI, Tip-Calculator and more.
